Finding a New Way

We experience our world through our senses—such as touch, seeing and hearing.

Expressive Arts invites you to explore your world in fun and inspiring ways using:

- mindful imagery and meditation
- quality paints and pastels
- unique musical instruments from across the globe
- responsive drawing
- journaling and poetry
- sculpture and clay
- beading

Expressive Arts sessions vary to suit your preferences, hopes, dreams and wishes. The sessions are designed to encourage you to strengthen your creative power and deepen your relationship with life. It is a safe non-judgmental environment for self exploration and self interpretation. As you are creating you will shape new perspectives. The arts allows you to freely express yourself without the boundaries of language.

Elke will guide you. It is not necessary to have any technical knowledge in any particular art form.

All sessions are confidential.
